

Dear Baranitharan S,

We are pleased to extend an offer to you for the position of **App Developer** at Welbuilt AI Solutions Pvt Ltd. We believe your academic background and interest in research make you a strong fit for our R&D initiatives.

Position: Intern : App Developer

Department : IT

Start Date: 22/11/2025

End Date : 22/05/2026

Mode: Hybrid

Stipend: 15000

During your internship, you will be working on a focused research project titled:

“Nakshatra Talks - Astrology App”

You will have the opportunity to collaborate with our R&D team, contribute to ongoing research and development activities, and gain hands-on experience in deep learning, model design, and experimentation.

Throughout the internship period, your progress and performance will be reviewed regularly to ensure a productive learning experience. As this is a research-focused internship, documentation, model implementation, and experimentation will form key components of your work.

This internship is purely educational in nature and does not include a stipend. Upon successful completion of the internship and all assigned deliverables, you will receive an Internship Completion Certificate from Welbuilt AI Solutions Pvt Ltd.

We look forward to having you work with us.

Please confirm your acceptance of this offer at the earliest.
